

1) I am a daily listener to Airl. My office will not pick up FM radio signals (or just few that I don't listen to).

2) This is one of the only sources for uninterrupted commercial free contemporary Christian music.

3) By the nature of being commercial free, Airl operates freely to encourage me in my faith and generally lift me up from the usual supply of let's shoot the police, beat the women, kick the dog type music generally on the airwaves.
